Summary

Hi 🙋, my name is Andre a Lead Software Engineer with experience building e-commerce systems, micro-services and payment integrations. I am a fast learner who is keen to learn new technologies and who has experience with the following technologies and platforms: GCP, Kubernetes, Docker, Pubsub, RabbitMQ, Git, Redis, SQL, Terraform, Algolia, Magento, Laravel, PHP.

SEP 20 - PRESENT (4 years & 3 Months)

END, London - United Kingdom - Lead Software Engineer (Backend)

- As a lead developer I spend less time coding and more managing, I'd say it is 60% managing and 40% coding.
 - Insure technical standards are followed
 - Lead and help to spec large tasks with project managers
 - Make key technical decisions to solve real world problems
 - Work along the team to build, maintain and improve our microservice infrastructure
 - Make sure team members are well supported and happy
 - Provide support to team members to achieve their careers goals by promoting, recognising their achievement and delegating complex tasks.
 - Lead migration from our monolithic platform to our microservice architecture.

SEP 2020 - SEP 2021

- Senior Software Engineer (Backend)

- Insure coding standards are followed
- Actively impart knowledge of END's key areas of our internal systems to the rest of the team.
- Integrations with third party software such as Algolia, Avalara, Wrike etc.
- Clear blockers for other teams
- Contribute to hiring process
- Contributed to the migration to a head-less architecture

NOV 2017 - SEP 2020

- Software Engineer (Backend)

- Use best practices to extend/add functionality to our e-commerce platform.

NOV 2017 - SEP 2020 (2 years & 5 Months)

Screenpages, Surrey - United Kingdom - PHP Developer

- Created Magento modules to extend the functionality of Magento to fit the clients requirements.

JUN 2015 - APR 2017

- Junior PHP Developer

- This is where it all started for me, my job here was to learn as fast as possible.
- I contributed to the build of several e-commerce websites, both backend and front-end.

Education

2011 - 2015

City University of London - Computer Science (BSc)

2007 - 2011

Harris Academy South Norwood - Secondary School

2004 - 2006
